Japan is busy fortifying South Sea Islands that she holds under mandate of the League of Nations, and complaint is made simultaneously.
Nothing to surprise anybody in that fortification news. Japan is an intelligent country.
It takes a country with statesmanship in the dodo class, like ourselves, to possess Guam, and fail to fortify the place because polite Britishers, acting as mouthpieces for Japan, requested us not to do so.

It is only fair to tell Japan and other countries, beginning to look upon the United States as an "easy mark," easy to rob by borrowing money, easy to beat in war, that we are not as weak in all lines as we are in statesmanship.

We are fairly able inventors, and good manufacturers. Among the men that patrol the highways of California and other states, typical of American youth, you could easily select 1000 that, on even terms, could beat 200 of any other country. And this is mentioned as plain matter of fact, free from boasting.

Also, our Japanese friends, for whom we have only the kindest feelings, are warned to look with suspicion on national cocksureness, based on conquest of China and Manchuria. Beating China was about as dangerous and difficult as for a mouse to gnaw holes in a large cheese.

And beating Russia under the czar and grand dukes was leading nothing at all.
Nobody questions the great fighting power of Japan, but it has still to be tested and proved. A trial with new Russia under Stalin would be enlightening.

No comparison between the fighting power of Japan and the United States is necessary because there will never be any such FIGHTING and comparisons, as Samuel Johnson remarked, are odious.

Friendliness is shown in the greeting given by Japan to our national hero, "Babe" Ruth. Sixty-five thousand Japanese paid good yen to see Ruth play baseball in Tokyo, and Ruth's victory by 17 to 1 was applauded heartily.

"It will not always be 17 to 1. Those that have watched the Japanese swim, play tennis, etc., know that if Japan wants to play baseball Japan WILL play baseball."

For your information, without any guarantee from one who has not visited California since the campaign began, the best informed man in that state sends this message:

"Upton Sinclair will NOT be elected."

If the prediction proves accurate, it means a postponement of an experiment that may have to come sooner or later.
It might have been a little expensive, but perhaps it would have been as well to make that experiment along with others. The wise surgeon performing a major abdominal operation "snips off" the vermiform appendix as he passes it.

President Knobel, of the United Lutheran Church of America, worries about the future.

WOMAN, 4 MEN SEIZED AT POLLS

'Our Jim' and Mary Vote Together

JAMES M. CURLEY MISS MARY CURLEY
Here are former Mayor James M. Curley and his daughter, Mary, as they cast their ballots today at the Mary Curley school, Jamaica Plain. Apparently unaware by his whirlwind "victory tour" of last night, the Democratic candidate for governor was brisk and smiling as he came to vote at the school building named for his late wife. (Picture by Boston Evening American Staff Photographer.)

'BY 200,000' U. S. Returns Indicate Democratic Sweep

Both Democrats and Republicans found something to cheer about in the first scattered returns from today's balloting by 30,000,000 or more voters in the nation.
Former Mayor Curley after viewing returns today, predicted that he would be elected governor by a majority of 200,000.
The prediction was made as he left the Mary E. Curley school, in Pershing road, Jamaica Plain, where he cast his ballot. Walking out of the polling place, he said:
"It will be a Democratic landslide all the way down the ticket. I will win by 200,000 majority, it looks like a result in the Republican ranks just as it was in 1932. The entire Democratic ticket will be swept in with Curley leading them all."

Latest Returns

"New Deal" Wins
Selma, Ala., Nov. 6.—Democratic nominees made a clean sweep of the nine votes cast today at St. Mary's Station, Dallas County.
The little community, always the first in Alabama to report on elections, completed its balloting at 9 a. m. (Central time).
one, Oklahoma City, precinct, reporting incomplete and unofficial returns today. Reports from 35 of the city's 140 precincts gave Marshall 1,862; Pines, 765.
"Wets" Lead in Kansas
Topeka, Kan., Nov. 6 (AP).—Incomplete unofficial returns from 144 scattered precincts in Kansas today gave a lead to Governor Alf M. Landon (R.) in his race for reelection against Mayor Omar B. Ketchum of Topeka (D). Three precincts also gave on the proposal to repeal the state's 18-year-old prohibition amendment.
For repeal, 139; against, 129.
Lee, President of Armour, Dies
Chicago, Nov. 6 (INS)—T. G. Lee, president of Armour and Company, died today following a recent appendicitis operation. He was 56 years old.
Lee was born in Carrollton, O., and first entered the Armour service in 1895 as a stenographer. He became president of the packing firm in 1931, succeeding the late E. Edson White.

Bridges Adds to Lead
Concord, N. H., Nov. 6 (AP).—Waterville, second town in New Hampshire, second town in New Hampshire, today gave its support to Governor Charles H. Styles Bridges, Republican candidate for governor, seven votes. John L. Sullivan, Democratic, received no votes.
West Virginia Vote Split
Meager and unofficial reports of the early vote for U. S. senator, shortly after noon today, had Ruff D. Holt, Democrat, leading in Cabell County, and Senator Henry D. Hatfield, Republican, ahead in a Harrison county precinct.

Pine Trails in Oklahoma
Oklahoma City, Nov. 6 (AP).—W. M. Mastand, the Democratic nominee for governor, was leading W. E. Pine, Republican, in all except one, Oklahoma City, precinct, reporting incomplete and unofficial returns today. Reports from 35 of the city's 140 precincts gave Marshall 1,862; Pines, 765.

Democratic gain in New Ashford
and Mount Washington, normally Republican Massachusetts towns, marked tabulations from the "off-year" election test of the New Deal.
Democratic leaders claimed this meant a nationwide sweep for their party.
The Republicans countered with returns from Michigan.
Polite Aux. Rangers, Michigan, which went Democratic two years ago, registered wide margins for Republican candidates.

Complete returns in three normally Republican towns today showed Curley leading Bacon, 109 to 107.

Mashpee, Nov. 6.—The complete vote for governor here gave James M. Curley 81 votes to 64 for Gaspar G. Bacon. In 1932 Governor Ely polled only 50 as the Democratic candidate against 73 cast for William S. Youngman, his Republican opponent.

Mt. Washington, Nov. 6.—This Republican town today gave James M. Curley, Democrat, 18 votes for governor against 21 for Gaspar G. Bacon, Republican. This compares with Joseph B. Ely, Democrat, 10, and William S. Youngman, Republican, 26, two years ago. It was a gain of 13 for the Democratic candidate.

New Ashford, Nov. 6.—Complete returns here for Governor gave James M. Curley, Democrat, 10; Gaspar G. Bacon, Republican, 22; Frank A. Goodwin, Independent, 1.

The 1932 vote gave William S. Youngman, Republican, 23; Joseph B. Ely, Democrat, 8; others, 2.

By BERNARD J. DOHERTY
James M. Curley is sweeping to overwhelming victory in his contest for governor against Gaspar G. Bacon, Republican, judging by returns from widely scattered parts of the state this afternoon.
Curley, after analyzing early returns from hitherto Republican strongholds, predicted victory by a plurality of 200,000.

Returns from the Republican towns of New Ashford and Mt. Washington, in the western part of the state, gave the Democratic candidate for governor

Woman, 4 Men Seized In Roxbury Vote Fraud

One woman and four men were arrested today in Roxbury charged with violation of the election laws soon after the polling booths were opened.
Betty Abrams, 27, of Woodrow avenue, Mattapan, the first woman ever to be taken in police headquarters to be questioned in an election case, was accused of attempting to use the name of Mrs. Anna L. Shore of Schuyler street, Roxbury.
When she asked for a ballot under the name of Mrs. Shore the latter happened to be in the polling booth and challenged her right. Mrs. Shore accompanied the prisoner and police to headquarters as a witness. The attempt to vote took place in St. Hugh's hall, Ward 12, Precinct 18.
Mrs. Abrams was quoted by police:
"I alone am responsible for attempting to vote illegally and will take the consequences."

Lone Vote in N. Y. Costs City \$500

New York, Nov. 6 (AP).—Rabbi Nathan Wolf, the voter who has a city election district all to himself, kept four election judges and a police officer waiting five hours today before he cast his ballot. After he left, the five officials settled down for another long wait. They had to stick around until 5 p. m. to go through the usual process of counting the vote. Ascertaining Rabbi Wolf's personal preference (for Governor Lehman) cost the city approximately \$500.

Boston American Election-Extra---First Returns---Tonight

FIRST RETURNS RECORD VOTE IS BEING CAST; CURLEY'S PREDICTION

well more than a 50 per cent increase over the Elly vote in the 1932 landslide.

Curley's gains over his own gubernatorial vote in 1924 was also striking.

Curley's prediction of a record landslide was coming true.

The New Ashford tabulation shows:
Curley 10.
Bacon 22.
Goodwin 1.

In 1932, when Governor Elly carried the state by 120,000, Elly, although a "western" man, received only eight votes in this little town. The late Lieutenant-governor William S. Youngman (R.) polled 23 votes. Two were scattered.

When Curley ran unsuccessfully for governor in 1924 he polled only four votes against 17 for his Republican opponent in New Ashford.

Town Goes Solid for Hurley
The rest of the count there today gave David I. Walsh 19 votes against 17 for Robert M. Washburn in the race for U. S. senator; 21 for John W. Haigis, Republican candidate for lieutenant-governor, against 13 for Mayor Joseph L. Hurley of Fall River, Democratic candidate.

State Treasurer Charles Hurley made the largest inroads into the Republican ranks by polling 23 votes, Oscar U. Dionne, Republican, got 9.

Thomas H. Buckley (D) was given 20 votes for auditor against 15 for Alvin C. Cook (R), but Joseph Santostano polled only five votes in his contest for the position of assistant secretary under Frederick W. Cook, who received 35.

As far as the Democratic column was noted even in the contest for mayor, where John W. Haigis, a Warner of Taunton was considered strong. He received only 24 votes to 30 for Paul A. Dever, Democratic candidate.

Curley's tremendous swing in victory was clearly evident also in the Mr. Washington vote, when it was compared to the three votes he obtained in 1924 for governor.

Walsh showed a decided gain in the Republican towns over the vote that elected him in 1928. In the first two towns his combined vote in 1934 was 15 against 4 for D. Lansing Young. In the same towns he polled 36 votes against the 23 cast for Robert M. Washburn, his Republican opponent.

He polled 17 votes against 14 for Mayor Joseph L. Hurley in the lieutenant-governor contest and State Secretary Cook polled 27 against 11 for Alvin C. Cook.

Dionne polled up a bit on State Treasurer Hurley's New Ashford tally by polling 23 votes against 14. Dever again appeared strong for Attorney-General Warner.

Treasurer Hurley led the Democratic column with a total of 37 votes in two towns. Senator Walsh polled 30 to Curley 28.

On the Republican side, State Secretary Cook ran ahead of the field with a total of 37 votes. Bacon polled 22, Haigis 23 and Dionne 23.

VOTE SETS RECORD
In spite of a drizzling rain, voters turned out with enthusiasm and the total vote might even surpass the record in the presidential election of two years ago, when the record was set of a total registration is 1,837,788 in an all-time record.

Records were broken in Malden, Malden, Everett and many other communities where after the polls had been open only a few hours.

In Medford the heaviest vote was cast in Wards 3, 6 and 7, known as Republican strongholds, but where, today, the Democrats poured out early to cast an overwhelming vote.

Walden, Winchester, Reading and Stoneham precincts were broken for early voting. The same applied in Quincy, Weymouth, Dedham and other South Shore communities.

FIGHT UPON LUCE
Walsh received his heaviest morning vote in history in a contest with the Luce family, with a total of 100 votes. Of chief interest in that section was the congressional contest between Mayor Richard M. Luce of Cambridge (R.), and Congressman Robert W. Luce (R.).

In the first hour of voting, 100 of the 800 registered voters in Winthrop had marked their choice.

East Boston was comparatively quiet.

met a man on Blue Hill avenue and he told me Mrs. Shore was sick and unable to go to the polls. So I thought I would do her a favor and vote for her. That's all."

Shortly before noon the police radio broadcaster notified all cruising cars to be on the lookout for an automobile carrying six men who were going from ward to ward voting illegally.

Timothy J. Conniff, 34, of George street West End, waited 30 minutes for the police to open today to vote the first ballot in Ward 2, Precinct 3, West End today. He was pressing the belief that he was a good voter for Democratic victory. Seething with anger, he said:

"I went right down the first for the Democratic party. I was the first to vote in the primaries in this precinct."

In the back Bay, in a Republican stronghold, George W. Fitz of 29 St. Botolph street, was the first to cast his ballot in precinct 11, Ward 4, North End. He also voted the straight Democratic ticket.

Mrs. Elizabeth Torrey of 417 East Eighth street, South Boston, waited for two hours in the drizzling rain today to be the first to cast her vote in Precinct 3, Ward 2, North End. She was the first to cast her ballot in the ward and East Eighth street. She told a reporter that she went right down the line for the Democratic ticket.

General Daniel Needham, former head of the state police, called the Boston Police Department's election office in City Hall at mid-forenoon. He checked several names on the list in Ward 6, South Boston, but made no comment. General Needham represented the Republican state committee.

The first protested ballot was cast in the polling booth at 1000, where Robert Luce, Jr., of 1000, was given assistance by the wardens and the ballot was immediately protested by one of the state inspectors.

Age means nothing to John Campbell of Vine street, Roxbury, when James M. Curley is running for office.

Campbell, 58, was out at 9 o'clock to vote for the former mayor. He served on many war committees with Curley.

Hunger caused considerable confusion at the Ward 21, Precinct 8 polling booth in Covey street, Brighton, when half of the election workers assigned went out to lunch together and a bumper crop of voters suddenly arrived. It was fast peeling for the remaining workers to take care of them.

Smerville voters braved the rain to vote the polls early. Shortly after noon, lines of the 40,000 registered voters had cast their ballots. The voting in the first five hours was the heaviest in the memory of any of the precinct workers.

Woman Waits in Rain to Vote for Curley

George Sterling, 34, of Lyons street West End, waited 30 minutes for the police to open today to vote the first ballot in Ward 2, Precinct 3, West End today. He was pressing the belief that he was a good voter for Democratic victory. Seething with anger, he said:

"I went right down the first for the Democratic party. I was the first to vote in the primaries in this precinct."

DAMAGES ASKED IN AUTO ACCIDENT IN CROWDER

Rudy Vallee, radio band leader and crooner, today was made the target of two civil suits totalling \$25,000, filed in East Cambridge Superior Court by two women.

They are Mrs. Alice P. Seavey, 65, of Greenwood, and Mrs. Jessie P. Walker, 50, of Belmont, both of whom say they were injured when a hired car, in which Vallee was riding, crashed into Mrs. Walker's automobile on the Newburyport turnpike, in Newbury, last June 20.

In today's suits, Mrs. Seavey asks \$25,000 and Mrs. Walker, \$5000.

Just for Love

RICHES OR RANK NOTHING TO KIN OF IVAN

By WINIFRED VAN DUZER

New York, Nov. 6.—Prince Mikhail Alexandrovitch Goundoroff, a young and charming scion of the nineteenth century Russian princes, and, before that, of Ivan the Terrible, came here today and New York debutantes and their mammae began day-dreaming.

The blonde, brown-eyed son of Prince Alexander Mikhailovitch Goundoroff, killed in the Russian revolution, and of Princess Elizabeth Rasko, now resident in Bavaria, came primarily to lecture on Russian art.

But he admitted frankly that he also came to look for a princess. And in the same breath, the prince, guaranteed to be an outstanding matrimonial catch of the day, or even the fully declaring that neither blue blood nor billions mean a thing in his life. His wife must have more than just those he explained:

"I'm an American citizen. I'm going to marry in the American manner—for love. 'If I had wanted to marry for money I would have done so long ago. I want a girl who will be a good wife and a good mother to my future children. 'I hope I find her soon!'

Despite repeated rumors of his engagement to Miss Narcissa Swift, daughter of the Chicago meat-packing fortune, he declared: "Miss Swift is very beautiful and she was kind, but I felt we wouldn't get along. I want no bride who will order me about. 'Sometimes Miss Swift and I would have a violent quarrel. That is bad!'

As an ambition—besides finding a wife—this glamorous youth, so like the Prince Charming of many a long, young dream, admitted he had picked out a tough quest. He wants to drive the Bolsheviks out of the world. He added:

"Bolsheviks in America are the overflow from Russia."

TIES SPLIT JANE WINTON WINS DIVORCE

By Associated Press

Reno, Nev., Nov. 6.—Jane Winton's second marriage ended in divorce here today. The stage and screen actress secured a decree on grounds of cruelty.

On her first marriage to Horace S. Winton, she was married in 1917. She had been married to him for 17 years.

She had been unable to find Billy in the smoke, but when Joseph Morrissey, 23, dashed upstairs to the 10th O'Halloran section of the triplex house, he corralled the youngster in the bedroom.

Things had been getting somewhat too warm for Billy, however, when he was found he had on no more clothes than a fan dancer, having divested himself of his pajamas.

Firemen finished the battle which O'Halloran had started and before the blaze could endanger Mrs. Mary A. Morrissey, an invalid, next door, or Mr. and Mrs. Charles T. Tuttle, the latter a daughter of Mrs. Morrissey, living in the third section of the house.

The fire caused \$500 damage.

Springfield, Mo., Nov. 6.—Ruth Pontico, 600-pound circus "fat lady," is going to Florida in a baggage car.

Her husband arranged for her removal from a hospital where she had been treated for typhoid fever. Mrs. Pontico lost a hundred pounds while ill.

WHO'S WHO Dionne Babies Now Talk to Selves

Callander, Ont., Nov. 6.—The Dionne quintuplets, now 23 weeks old, look so much alike you have to look sideways now," Dr. A. R. Dugas says.

"And even then," he added, "you're often wrong."

Martin, since she is the smallest, is most easily recognized, but even for those in daily contact with her, it is difficult to distinguish her from the others. Each of the infants has a double chin.

The infants' brains are normally active, he said, and all five youngsters are bright and cheerful. The doctor declared:

"When they wake up they seldom cry, they just bounce up and down in their little crabs, and sometimes talk to themselves."

Health Tests For Youths Seen As Cure

By International News Service

New York, Nov. 6.—If every boy and girl between the ages of 12 and 15 were to undergo an annual physical examination, a tremendous gain in national public health would result, Dr. Charles Mayo, internationally famous surgeon, who with his brother, William, heads the Mayo clinic at Rochester, Minn.

This statement, made by Dr. Mayo while addressing the health and safety committee of the Boy Scouts, was amplified by him today in an interview.

"We are too much interested in curing people of middle age to-day, little realizing that in many cases we are beginning years too late," Dr. Mayo said. "The damage has already been done. What has happened is that many dangerous diseases in children have been allowed to go undetected until in later years it was too late."

"Out of every 1000 boys and girls between the ages of 12 to 15, 18 per cent have some disease of which number over 60 per cent are curable or ameliorable."

MARY CURLEY IN PRIMACY TO REE 'GOV. JIM'

Picture on Page 1

By PEGGY DOYLE
So confident is Mary Curley that her father will be Massachusetts' next governor that she has completed all her plans for a house reception at the Curley Jamaica-way home, she revealed today.

Aud cheer and lusty shouts of "Howdy, Governor," "Hello, boy, Jim!" "Good luck, Governor!" former Mayor James M. Curley and his daughter arrived at the Curley Curley school, Jamaica Plain, at 1:25 to start their reception.

The amiable "Jim" acknowledged all salutations while Mary smiled and shook heads with a number of women who hovered around her.

BOY POINTS WAY

The arrival was the signal for a demonstration in which a large crowd participated.

Although it only took them one minute to vote, they were detained for almost half an hour by an admiring throng of well-wishers.

The former mayor was directed to the voting booth by 12-year-old Robert Carey of 3 Regent circle, Jamaica Plain, a fifth grade student at the Mary Curley school.

As he was on hand on primary day to congratulate the probable next governor of the Commonwealth, he was present today to lend a younger generation the assistance of an already enthusiastic crowd.

Young Carey took the former mayor by the hand and together they walked down the corridor while Robert confided in "Dad Jim" that he pulled his class the day following primary day and was a 100 per cent Curley aggregation.

This pleased the Democrat and he patted Carey on the shoulder.

Mrs. Curley took her young son to the voting booth, where she told him that, like her father, she hadn't the slightest doubt of victory.

The former mayor expressed an anticipation that he would win an overwhelming majority of 200,000 over the Republican candidate, Mary nodded, saying:

"That's right, I just know my father will win. I am confident of his victory that we have arranged already made for an open house reception tonight when the votes are counted."

"This has been a strenuous fight but a great one. Dad and I didn't come home until after seven o'clock this morning. We attended a rally in Vine street, Roxbury. It was a marvelous turnout, an expression of great confidence in my father and we so many working people willing to stay out until that hour."

"I have always been interested in my father's campaigns, but this time I took an active hand. I even made speeches, although I prefer to leave speaking to the men. But it has been an interesting experience that I will certainly win will be clinched with victory."

"Now that we have voted we are returning home and will remain there until three o'clock. Then we will go down to the Democratic headquarters to participate in a victory parade, after which we will hold open house for congratulations."

Jimmy McHugh, the song writer, whose brother, Lawrence, is running for representative, was present at the Curley Curley school and shook the former mayor's hand with victory expressed in his handshake.

CHRISTIAN GRADUATES AT GRADUATES AT

Lawrence, Nov. 6-A bitter battle between the American Legion and members of the Lawrence High school athletic authorities arose today over the scheduling of football game Monday for 2015 Armistice Day morning.

The Legion demanded the game be played either Saturday or Armistice Day afternoon.

The original schedule called for the game Saturday, but school authorities changed the date to Monday forenoon. Athletic directors refused to comment.

LONG WANTS TO G. O. P. HUNTING 'SICK' VOTE

New Orleans, Nov. 6-Harry Long today declared he wants the state of Louisiana to secede from the Union.

"This only way to get out of this hole depression," said the "Kingfish," "is to leave the United States—ever all connections and make a clean break. I think we ought to have some kind of agreement with the government to let us get out of this hole—friendly agreement, or, if necessary, some other kind of agreement so we could be independent or join up with Mexico or something."

"We ain't going to get any place here," he said, "until we get all these barons, lobbyists, autocrats and all those other crabs."

The immediate subject of an adverse ruling against him by the United States Supreme Court yesterday, ordering him to stand trial for land on tomahawk he hurled at General Samuel T. Ansell.

SLASH, PLUNGE Fail to Kill HEBERT SEEN AS VICTOR

Some people don't have any luck at all.

Jacob Joseph, 22, of Shepard place, Lynn, slashed the left wrist with a butcher knife today and then leaped from a third-floor window in his home.

Nothing very serious happened, he went into the hallway and laid down.

Neighbors, who had seen him come hurtling down, notified police and when they arrived he begged the officers to shoot him, they said.

He was taken to the hospital, where it was found that the slash was no more than a cut and that he was not seriously injured.

He told police he was desperate because he could not find work.

TWO KILLED IN THE RIOTS

By Associated Press
Holt, Me., Nov. 6-Two men were shot to death, two were critically wounded and several Negroes were beaten in riotous disorders in this vicinity today.

The disorders supposedly were prompted by attempts of Negroes to vote. Race feeling has flared in recent weeks.

Herbert Perrell, 34, a white man, and an unidentified Negro were slain, and Perrell's father, John E. Perrell, and a Clarence Poole, identified as a white-old-white farmer, were injured.

The Perrells and Poole were reported fired upon as they were bringing Negroes into town to vote.

Floyd Cambridge Gas Firm At State House Hearing

Employees of the Cambridge Gas Light Company were forced to buy \$20,000 worth of stock in the New England Gas and Electric Association when the stock boom was on and today their holdings are of doubtful value. It was charged at a State House hearing today that the Cambridge Gas Light Company had been using its gas consumers of Somerville, made the association's holding company for the purpose of public utility.

The Cambridge gas company seeks permission to buy their gas instead of manufacturing it from the proceeds of the proposal claim that 200 men in Cambridge will lose their jobs if the utility commission sanctions the deal.

MOORE IDLENESS SEEN
The Framingham gas company also proposes to join the Cambridge company in buying its gas. The gas would be bought from the Boston Consolidated Gas Company. Framingham workers would also be thrown out of work, it was asserted.

Johnson was joined in his opposition by Henry Wise, attorney for the Cambridge City Council. Attorney Wise presented a petition and in certain 10,000 signatures of residents opposed to the gas buying proposal.

In a questioning period Johnson was asked to draw from Frank H. Johnson, president of the New England and the Electric Association, a declaration that pressure was

MAINE ACTS ON LIQUOR BILLS

By Associated Press
Augusta, Me., Nov. 6-The 86th Legislature convened today in special session at the call of Governor Louis J. Brann to enact a liquor regulatory law.

Governor Brann asked for a law which would be an "liberal" as those of neighboring states.

"If we fail to immediately act we shall be placing ourselves before the judgment of the people who have voted by substantial majorities for repeal of national and state prohibition," he declared in an address before a joint session of both branches.

Two bills, both based on the state store system, were ready for introduction today.

Where Stately Elms Once Shaded a Colonial Mansion

WHEN you next pass the new Federal Building in Post Office Square think of high spreading elm trees sheltering a stately Colonial mansion house. For on this very spot in 1784 stood the residence of Peter Rowe Dalton, an important figure in this Bank's early history. It was Dalton who journeyed to Philadelphia on horseback, as the early records disclose, "to make himself master of the system of accounts made use of in the Philadelphia Bank, of the manner in which Business is there transacted and the particular part of the Business assigned to each person employed by the Bank." In 1785 he became the Cashier of the Massachusetts Bank.

The stately elms and the Dalton mansion are gone. And the accounting methods of Cashier Dalton, though basically unchanged, have been amplified and brought into line with the demands of present-day banking. But we have kept the same spirited determination to be useful to the community which characterized our ancestor bank in 1784. Today through our Head Office and 26 branches we bring every service of modern banking within convenient reach of the entire community.

U. S. PROBERS ASK REVISION OF SHOE CODE

By Associated Press
Washington, Nov. 6.—Drastic revision of the boot and shoe code has been recommended in a report submitted to the national recovery board by a special committee which recently completed an investigation of conditions in the industry in Massachusetts.

The report, containing sweeping criticisms of the existing code recommended re-opening of the code for the consideration of suggested amendments in hour, wage and other provisions, advocated the creation of a special labor relations board for the industry in New England and establishment of compliance offices at Boston, Brockton and Lynn.

WALSH FILES PROTEST
The investigation was ordered by the recovery board after Senator Walsh of Massachusetts protested against price cutting forced by chain store buyers with resultant wage reductions and threats of migration from highly unionized urban centers to rural communities in other states.

A survey of conditions in eastern Massachusetts was made by John Winthorpe, deputy administrator of the NRA, William Fallon of the research and planning division, and Joseph H. Brodinsky of the labor advisory board.

Reports indicated the survey had shown the price cutting of which Walsh complained actually was taking place, with chain store buyers forcing manufacturers to bid against each other. The result to the manufacturers has been that they were forced to choose between passing up large orders or reducing their wages.

One other alternative, which disturbed Walsh, is migration to communities where labor costs are lower. Some companies already have moved from Massachusetts into New Hampshire and Rhode Island, the investigators are said to have found.

REVIVAL OF CONTROVERSY

A revival of the sectional controversy that raged during the preparation of the shoe code is promised if, as reported, the investigating committee has recommended abolition of wage differentials and the recovery board agrees to approve the recommendation. A suggestion that a flat minimum wage of 40 cents an hour be established is under consideration, and abolition of the wage differential, especially the population differential which set minimum wages according to the size of communities, is believed suggested in the committee's report.

Other recommendations believed in the report call for creation of a divisional code authority for New England, pending reopening of the code.

NEW ATTORNEY VISITS BRUNO

New York, Nov. 6 (AP)—Edward J. Reilly, new defense counsel for Bruno Richard Hauptmann, was busy today assembling facts and data to build up a case for the man accused of killing the baby of Col. Charles A. Lindbergh.

In Reilly's own words, he was "starting from scratch" and having no idea from June 30, 1932, his predecessor, Reilly, intends to seek from Hauptmann only the papers relating to the case.

The new defense attorney was visibly cheered today as a result of a conference with Hauptmann in the jail at Elm Street, N. Y., today. On that visit, he was accompanied by C. Lloyd Fisher, Flemington representative for the defense corps.

Reilly was unwilling to divulge any plans he has for defending Hauptmann, but he did say that he found the accused "cool, calm and collected."

SIX RESCUED ON CRIPPLED BOAT

Provincetown, Nov. 6.—Six Boston fishermen were rescued aboard the 80-ton trawler Catherine Graffeo today after the vessel had foundered for three hours with a broken crank shaft.

Coast guards of the Wood End station had to battle their way through fog and heavy surf to reach the vessel after a lookout had heard repeated blasts of the fog horn.

Captain Arthille Rubino of the North End and his crew of five were taken to a dock here. The fishing craft is owned by Catherine Graffeo of North street, North End.

COMPLETE ELECTION RETURN SERVICE BY AMERICAN

Responding to thousands of urgent requests from Massachusetts radio fans, the Boston Evening American will bring the tabulations and analyses of today's election returns (at fifteen and twenty minute intervals) to the public tonight, over Stations WBZ and WBZA from approximately 8:30 p. m. until 2:00 a. m.

These returns will be the most complete and most authentic available, and will be given in tabular form to the voters. Special arrangements for the broadcast were made through John A. Holman, manager of WBZ-WBZA, and the management of the Boston Evening American. Comprehensive interpretations of the hourly returns will be likewise given for the New England audience.

The diminutive Countess Olga Albani, lovely Spanish radio and concert soprano, makes her Columbia debut tonight when she sings a guest star hit on the program that will feature Ismael Jones and his team of musicians. The singing will be accompanied by a WBZ-WBZA orchestra from 9:30 to 10:30 p. m. and a Melodisc Quartet, directed by Elliott Stevens, will follow with some enjoyable harmonic accompanies.

Countess Albani

Lawrence Tibbett, baritone personality, will give a decided international flavor to his radio performance (WBZ-WBZA) at 8:30 p. m. when he presents a program made up exclusively of requests of world-wide celebrities, including two Latin-American presidents and the composer Franz Liszt. Featured also on the program are John B. Kennedy and Wilfred Peck, who will sing "The Peanut Vendor," "The Merry Widow," "Exoticism," and "Vision Fugitive." Orchestra selections will be dedicated to Prince Sainjo, Japanese statesman, and to Mourad Sidani, Lebanese Pascha, prime minister of Egypt.

Air Favorite This Ear—That Air

By N. F. T.

There's many a purposely planned rearrangement of ideas, people and performance in radioiland. Very often all is far from as it seems or as announced. While the listeners believe what is heard, why not exercise some showmanship?

At one of our high sound arrangements, an elaborate classical "Russian Concert" held forth recently. Music was "under the direction of Ivan Matzloff," according to what the "mike" man said. In reality that leader man happened to be of Italian extraction, bearing the name Joseph Matzloff, or a spelling quite close to that. Also amusing in the things are-not-true-to-form was that "Berndt Hour" of folk songs and stories, featuring a collection of Irish named Mary McCarthy, as the soloist.

By Betty Alden

OUR CALENDAR OF EVENTS is so full for this month, we are thinking of running away... getting cruise conscious again. We can see no sleep ahead except in taxicabs... we might as well be an eskimo. Life is just one long night to us and we do not see the sun except when it is setting. This evening-cum-night is getting on our nerves a bit and there are lovely deep ruts in our otherwise noble brow...

Take Wednesday, for instance: There is a luncheon at the Chilton Club for Miss Barbara Kidder, one of the topmost blossoms on the fine family tree of the Appleton-Rudd clan... and a dance later at Endean, in Walpole, the magnificent estate of Mrs. Charles S. Bird, which will bring out the Canals and their escorts...

Tea and Reception

MRS. HAROLD EVERETT PORTER is giving a tea and reception at her model apartment in the Hotel Vendome for the Group Theater associates, with Alexander Kirkland and Margaret Barker as guests of honor. Mrs. Roland G. Hopkins, hard and earnest worker for this excellent group, will be pouter with the assistance of the beautiful Mrs. William Everts, the charming Mrs. Robert Cushman, Mrs. H. McKnight Franchot, who has the distinction of being aunt to the handsome Franchot-Tone of moving picture fame, and Mrs. Philip G. Saltonstall, Lady Bountiful to every good cause.

At noon there is a luncheon and fashion show (right here we mean) at the Copley-Plaza to benefit the South End Day Nursery. This event apparently goes on and on...until four, when there will be a radio broadcast by Miss Annie Brink, Boston's foremost fashion expert, who forecasts the next trend before the smart Young and Lovell make a mistake. She will disclose many intimate style secrets invaluable to the smart woman. Not so long ago she warned us not to fall too hard for the becoming berets, so here we are wearing a Fied Piper affair that makes us look like Peter Pan a hundred years after...but who cares, we are still in style and that means a lot. Better be dead than out of style!

Debutantes to Act as Models

AMONG THE FAIR THINGS who will appear as models is the tall and slender Polly Carter (who we glimpsed looking very lovely at the Tiger Ball with young Gleason the other night), Alice Spaulding, one of the HITS of the season with the stags, Ellen Grey, Mary Fuller, Dorothy Knowles, Janet Marston, Frances Shea, Charlotte Beckley, Carlotta Kraus, Barbara Keith and Mrs. Samuel H. Wolcott, Jr.

Included in the broadcast will be a radio interview between Wentworth Cann, master of ceremonies of WHDH, and Lowell Ames Norris, author and newspaper man. Mr. Norris will discuss briefly child welfare problems, particularly those which the South End Day Nursery meets and solves. Credit is due Mrs. George E. Chapman of Brookline, vice-president of the South End Day Nursery, whose constant efforts has made possible all of the reservations for bridge between the luncheon and fashion show hours. Mrs. Chapman is chairman of the bridge committee and is assisted by Mrs. Herbert Jenkins (who gave a most interesting talk on Mallorca last season, we remember), Mrs. George Heiges, Mrs. James Munroe and Mrs. Virginia Roberts. There will be a prize for each table.

Luncheon at Women's City Club

STARS FROM THE Success Story cast will be guests of honor at a luncheon at the Women's City Club on Beacon street at 12:30, when Bob Lewis and Margaret Baker will put in an appearance.

The Robert Perkins have taken Mrs. John T. Wheelwright's house at 14 West Cedar street for the winter...

The Joseph D. Leland is spending the winter at Hancock, N. H., their Milton house is closed.

Tom Williams, brother of the popular Frances Williams, is recovering from a severe automobile accident in Germany, where he is in a hospital.

Walter Hardy has taken the Princess' house in Dover for the winter... he gave a house warming one night lately.

The J. Lewis Bremers have called it a season at Cohasset and are dispensing their well-known hospitality in Boston.

We hear that Marguerite Wood looked very charming at her presentation luncheon at the Algonquin Club yesterday... the color scheme for the decoration was autumn yellow, gold and green and evoked much comment on its beauty and originality.

Tea Dance for Marjorie Bemis

MRS. ALBERT FARWELL BEMIS of Chestnut Hill is giving a tea dance for her debutante daughter, Miss Marjorie, on Friday evening of this week. Later in the winter she will arrange a large ball in her honor. Miss Bemis has been elected president of the freshman class at Vassar College where she is studying this winter. She is a provisional member of the Junior League.

The New Empire Room at the Vendome will be opened by a charity ball on Monday evening, November 19, with supper and cabaret, to aid the Boston Children's Friend Society. The ways and means committee is headed by Mrs. William G. Rueter, chairman. Mrs. Homer Albers, Mrs. Hugh Bancroft, Mrs. Thomas P. Beal, Mrs. Harold Cutler, Miss Elizabeth Downes, Mrs. F. Reed Estabrook, Mrs. Huntington R. Hardwick and Mrs. Vassar Pierce.

The patronesses include Mrs. Gordon Abbott, Jr., Mrs. William Augustine, Mrs. Edward L. Fievelon, Mrs. Albert C. Burrage, Mrs. Tabbot, C. Chase, Mrs. William C. Cloy, Mrs. William S. Feigler, Mrs. John Gardner, Flint, Mrs. Henry Pratt McKean, Mrs. John C. Mickles, Mrs. Robert S. Ogden, Mrs. Edgar Edward A. Taft and Mrs. Sheldon E. Wardwell. Miss Alice V. Burrage, daughter of Mr. and Mrs. Yose Burrage of Marlborough street, is assisting a social representative at the Hotel Vendome.

MYSTERY HIDES MORO FIRE CAUSE

By Associated Press
Washington, Nov. 6.—Spontaneous combustion was mentioned as one of the possible causes of the fire which destroyed the liner *Moro Castle*, in a report by Director N. Hoover, assistant director of the bureau of investigation of the Department of Commerce.

Hoover said today his report, expected in a day or two, will not attempt to fix the cause of the disaster, but will analyze all the ways in which the fire might have caused.

"I am not able to say exactly how it started," Hoover added. "Hoover, in his report, will recommend these three major reforms:

- 1.—Fireproofing of all vessels.
- 2.—Practical examinations for able-bodied seamen.
- 3.—Revision of laws limiting liability of ship owners.

By Associated Press
Ashbury Park, N. J., Nov. 6.—A crew of about 30 men today started salvage work on the bulk of the ill-fated *Moro Castle*, Ward Line steamship which was destroyed by fire off the coast here in September.

The salvage work is being conducted by a New York firm which was awarded the contract yesterday by the War Department at Washington.

Salvage work was originally started October 25, but halted almost immediately when the ruling came that PWA funds could not be used for the project as had been planned.

U. S. Spurs Action On Girl Held by Nazis

By International News Service
Berlin, Nov. 6.—Ambassador William E. Dodd today assumed leadership of the fight to win a speedy hearing for Isobel Lillian Steele, 23-year-old Hollywood art student, who has been in Moabit Jail here since early August on a charge of uncertain nature.

The American diplomat, it was learned, is taking prompt steps to reinforce the efforts of Consul General Raymond Geist to bring the girl to a head.

His immediate aim is to persuade the German authorities to permit a complete report on the charges that are likely to be finally brought against the girl.

In view of the vague nature of the charges, the American authorities want to learn whether she is to be accused of espionage, and whether she is likely to be brought before the secret people's court, which has the power of dealing out the death sentence.

The ambassador has also decided to co-operate with Consul General Geist, M. Hathaway, Jr., of Munich in pressing further inquiry into the case of Richard Roederer, 40, former Chicagoan and naturalized American citizen, who is in a Bavarian jail charged with suspicion of espionage.

Ambassador Dodd's first move in the Steele case, it was understood, will be a consultation with Consul General Geist, and a careful study of the data on the affair available.

Geist is understood already to have called upon several high German government officials seeking information about the charges against Miss Steele, who is also a naturalized American.

The German authorities are said to be given fair treatment.

GONDEK IS HELD WITHOUT BAIL

Mitchell J. Gondek, 22, of Ferry Lane, Lowell, is being held without bail in Cambridge jail, after pleading not guilty to indictments charging him with first degree murder and breaking and entering.

Both the prosecution and the defense have indicated that they would insist on an early examination of Gondek, who is charged with the double murder of Mr. and Mrs. Paul A. Connette in Lowell last June. At the time the murder was called the most bloodthirsty killing Lowell had ever seen.

Dist. Attorney Warren L. Bishop said he would ask an early trial, as soon as the report on Gondek's sanity may be obtained.

She has no actual tumor of the gland, but there was fluid which pressed on the gland which caused lack of secretion. And it was in this that we found the cause of her disturbance."

The surgeon declared that the condition of this patient was satisfactory today, although she is somewhat uncomfortable. She will, however, have to remain in the hospital for several weeks.

Mr. Gilson was at the hospital until midnight and then went to the home of Paul C. Sanborn, at 144 Warren street, Brookline, for a little rest.

The operating surgeon, Dr. Horvath, was formerly house physician at the First Best Brigham Hospital in Brookline.

Miss Coleman and her husband preserved the same secrecy about the matter of her ailment and the operation as they did about their romance and marriage.

The couple surprised their friends in March, 1933, by marrying secretly at Fort Lauderdale, Fla.

When the news of the wedding leaked out, Miss Coleman refused to deny or confirm it for several days.

Mr. Coleman is 22, her husband, 29. Her home is in Los Angeles.

REGISTRY MAN DIES IN CRASH

Worcester, Nov. 6.—State Motor Vehicle Inspector John M. Hennessy, 35, of Worcester, was killed today when an automobile in which he was riding with three other motorists crashed into an underpass and crashed into a stone abutment in West Boylston, Harold R. White, 40, also of Worcester, was killed near the scene of accident and arrested on a charge of drunkenness, but later was discharged without arraignment.

G. Robert Jernberg of Vendora road, declared by police to have been the driver of the car, suffered a concussion of the brain and the loss of a number of teeth.

He was found wandering dazedly along the road and was taken home by a motorist and treated by a physician. Later he was served with a summons charging dangerous driving.

Jernberg told police he drove into a fog area and was headed for the bridge when he came out of the fog. When he applied the brakes, the car skidded and crashed into the abutment.

TERROR REMAINS IN ITALY, SAYS KNICKERBOCKER

Terror, a necessary instrument in the formation of a dictatorship, has receded in Fascist Italy but it remains in the background, ready to be called upon if needed, H. R. Knickerbocker, noted foreign correspondent of International News Service, writes in the fourteenth issue of his new series, "Democracy versus Dictatorship."

Rome, Nov. 6.—Once every morning Mussolini receives a visitor. It is the same visitor every morning. It is always the first visitor.

It is the head of the police of Italy. When dictatorships take power they do it with terror. In the period of consolidating the power, terror retains the first place in the system. They call it "the necessary" or "the necessary measure." If it is a "good" dictatorship, terror gradually recedes into the background. It has so receded in Italy. It may become invisible, but it always remains, latent, ready to be called upon, and ever present in the background of public consciousness.

MUSSOLINI BACKED

Mussolini at this moment, 22 years after entering in power, nine years after consolidating power, has the backing of the Italian people for reasons ranging according to their importance today in about the order named.

"First, because of his personality; second, because of his accomplishment; third, because of the hypnotic power of his movement; fourth, because of the discipline imposed upon the population by the party and the police."

This "discipline" in the first place of the revolution, was the terror. It was imposed then, not by the police but by the "squadrists," the right-hand of Hitler's brown-shirted storm troops. It was then the nature of the reason for Fascist power.

Today the elements of discipline are the Fascist militia and the police. There are about 400,000 militarily armed Fascist militia and 45,000 carabinieri, the excellent generalissimo comparable to the Czech Spanish civil guards or Canadian Northwest mounted and perhaps another 20,000 municipal police, and finally, the "ovra," the Fascist secret service.

DISCIPLINE NOT HARSH

The discipline imposed by this impressive lineup of armed force is efficient, but it is incomparably less harsh than the discipline of the Soviet union or of Nazi Germany. It is, indeed, precisely as harsh as is necessary to keep the dictatorship up, and democracy down.

How harsh is it necessary to be in a Fascist dictatorship 12 years old? This dictatorship could answer:

"We look at our population and find that most of the people respect Mussolini. Many of them idolize him. Most of them value what he has done for Italy. That's fine."

"Now if there is anyone who disagrees, let him keep his mouth shut and his health will be unimpaired. But if anyone disagrees and insists on saying so, then we have a number of methods to silence him."

Mildest method is "admonition." According to the law of 1926 on public safety, "the chief police officer of the district may denounce to the prefect as a case for admonition, those who are pointed out by public rumor as dangerous to the national order of the state."

A commissioner reprimands the culprit and orders him not to leave the city, to be at home every night by ten o'clock and not leave before six in the morning, and not to frequent cafes or attend public meetings.

SECOND DEGREE

Second degree of harshness is "compulsory domicile." This means

FURRIER HEAD CITES GAINS

This country is definitely on the way to a newer and sounder kind of prosperity under the leadership of President Roosevelt, Henry T. Zell, president of Scott Furriers, declared in a talk at Boston University. He said:

"New England is today, and has been for some time, better off than the rest of the country and the opportunities are greater than ever for individuals and business concerns of real ability and a willingness to work hard."

Advertising, he said, is of the utmost importance to any business that would make the most of present opportunities.

It is a mistake to curtail advertising appropriations," he said. "In fact, it is essential to increase them, because if one has the right merchandise to sell and the proper means of advertising, the business must be successful."

As an example, he pointed to his own firm, which, he said, has doubled the payroll of its New England stores since last year. The NRA, he added, has been a tremendous help to employers and employees alike.

FRIDAY'S VOTING REFORM PLANS WILL GET FIRST TRIAL

Those who want to vote for Prime Minister Frisby today will have great fun. Not only will he serve ice cream and cake to the lucky few who vote for him, but he will sit in a special chair that will be placed in a room behind the sheet in a covered area, so that no one will see him on the sheet and he will be able to see the voters. To make it more fun for everybody, candidates may assume any available disguises and make the most of the opportunity to take ridiculous attitudes on various issues. The voters have made his choice, he will be permitted to do so. The one receiving the most applause will then receive the prize, as to whether or not the ballot boxes have been stolen in Frisby's enemies.

Another result of civilization has been a great decline in the number of careers and great increase in those checked.

Cambridge Late. It is a pity that the Harvard football team is not better prepared for the season. The team's offensive line is weak, and the flying halfback is hurtling through space for a score.

Western. Lynch came down hard and was quite shaken up by the flight. The game ended in a fight with Tech on the winning side of the 26 to 0 score.

It's only a high school game in Washington but look at that. Lynch, left halfback of Tech team of Washington, D. C., seems to be using wings as he takes the ball over the Western line.
